The Year of German-American Friendship 2018/19

Until the end of 2019, Germany organized a **Year of German-American Friendship** in the United States based on the idea that the US and Germany are **Wunderbar Together** – stronger as friends and partners. Wunderbar Together was a year-long initiative that intensified the dialogue with our American friends. It conveyed a comprehensive image of the multifaceted German-American relationship through events in the areas of science, art, culture, language, business, and sport and promoted exchange with Americans across the country. Over the past year, the initiative has been successful in strengthening existing networks while also bringing many Americans into the dialogue about the German-American relationship who had previously never taken part in such discussions.
